COMFORTABLE AND STURDY

Cell72 is the soft seating system designed to create personalized waiting and informal meeting areas within open plan spaces.

All the Cell72 collection is made with innovative materials that give shape to products comfortable, durable and with a contemporary design. The internal structure is made in steel, fully covered with moulded polyurethane, flexible, crushproof, CFC free. The seat cushion has a thickness of 200 mm and is made in shaped polyurethane foam, flexible and CFC free. The inner seat is in wood, thickness 18 mm.

FUNCTIONALITY

To give more functionality to Cell72, it may be equipped with an elegant revolving table. In the high back versions the revolving table is assembled in such a way that one can easily bring it to the back part of the chair allowing a useful supporting plane.

Cell72 can be equipped with a USB socket to stay connected.

THE STYLE OF THE DETAILS

This seating collection with countless finishes, upholsteries and different bases in steel or wood offers the freedom to personalize their areas by choosing the best options.

Cell72 can be equipped with a comfortable cushion with removable cover.
